

BILLING CODE 3410-34-P

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

[Docket No. APHIS-2023-0032]

Notice of Request for Extension of Approval of an Information Collection; Johne's Disease in Domestic Animals

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Extension of approval of an information collection; comment request.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the Animal and Plant Health Inspection Service's intention to request an extension of approval of an information collection associated with its efforts to control Johne's disease in the United States.

DATES: We will consider all comments that we receive on or before [Insert date 60 days after date of publication in the Federal Register].

ADDRESSES: You may submit comments by either of the following methods:

- Federal eRulemaking Portal: Go to www.regulations.gov. Enter APHIS-2023-0032 in the Search field. Select the Documents tab, then select the Comment button in the list of documents.
- Postal Mail/Commercial Delivery: Send your comment to Docket No. APHIS-2023-0032, Regulatory Analysis and Development, PPD, APHIS, Station 3A-03.8, 4700 River Road Unit 118, Riverdale, MD 20737-1238.

Supporting documents and any comments we receive on this docket may be viewed at [regulations.gov](https://www.regulations.gov) or in our reading room, which is located in room 1620 of the USDA South Building, 14th Street and Independence Avenue SW., Washington, DC. Normal reading room

hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 799-7039 before coming.

FOR FURTHER INFORMATION CONTACT: For information on Johne's disease, contact Dr. Mark Lyons, Acting Director, Ruminant Health Center, Strategy & Policy, VS, APHIS, 4700 River Road, Riverdale, MD; (614) 592-7954; mark.a.lyons@usda.gov. For information about the information collection process, contact Mr. Joseph Moxey, APHIS' Paperwork Reduction Act Coordinator at (301) 851-2483; joseph.moxey@usda.gov.

SUPPLEMENTARY INFORMATION:

Title: Johne's Disease in Domestic Animals.

OMB Control Number: 0579-0338.

Type of Request: Extension of approval of an information collection.

Abstract: Under the authority of the Animal Health Protection Act (7 U.S.C. 8301 *et seq.*), the Animal and Plant Health Inspection Service (APHIS) of the U.S. Department of Agriculture is authorized, among other things, to prohibit or restrict the importation and interstate movement of animals and animal products to prevent the introduction into and dissemination within the United States of livestock diseases and pests.

Disease prevention is the most effective method for maintaining a healthy animal population and for enhancing APHIS' ability to compete in the world market of animal and animal product trade. Johne's disease affects cattle, sheep, goats, and other ruminants. It is an incurable and contagious disease that results in progressive wasting and eventual death. The disease is nearly always introduced into a healthy herd by an infected animal that is not showing symptoms of the disease.

The regulations in 9 CFR part 80 pertain specifically to the interstate movement of domestic animals that are positive to an official test for Johne's disease. These regulations provide that cattle, sheep, goats, and other domestic animals that are positive to an official test for Johne's disease may generally be moved interstate only to a recognized slaughtering

establishment or to an approved livestock facility for sale to such an establishment. However, they may also be moved for purposes other than slaughter under certain conditions. Moving Johnes-positive livestock interstate for slaughter or for other purposes without increasing the risk of disease spread requires a movement permit or an owner-shipper statement, official ear tags, and a permission to move request. Permission may also be sought, in writing, for movement of animals that do not have a permit, owner-shipper statement, or ear tags.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

- (1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- (3) Enhance the quality, utility, and clarity of the information to be collected; and
- (4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public burden for this collection of information is estimated to average 0.69 hours per response.

Respondents: Accredited veterinarians, herd owners, and livestock shippers.

Estimated annual number of respondents: 6.

Estimated annual number of responses per respondent: 2.

Estimated annual number of responses: 10.

Estimated total annual burden on respondents: 7 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 4th day of April 2023.

Michael Watson,

Acting Administrator, Animal and Plant Health Inspection Service.
